Variety of knobs

The Exclusive hand-made door series are fully manufactured by Thermoplastiki with the finest raw materials and accessories.

They are hand-made, allowing the development of end products in accordance with the wishes of the customer, both as regards the design, colour and material and in terms of size and dimensions. The unique end result is synonymous to the manufacture quality of Thermoplastiki, offering you the top product in wooden interior doors.

The Exclusive door series are divided into two design categories: Exclusive Flush, with flat or coplanar surface, and Exclusive Moulded, with an elaborate design to the depth of the surface. This section refers to the Exclusive interior door series with flat or co-planar surface.

CHARACTERISTICS

EXCLUSIVE DOORS

Frame

Round or square made of blockboard, 44mm thick, lined with natural or artificial veneer, 0.7mm thick, painted/varnished. Rubber integrated to the case.

Lock

AGB Lock, mod. Mediana or Polaris, in nickel and gold, for ultimate functionality and design.

Thresholds

MDF round or square. Lined with natural or artificial veneer, 0.7 mm thick, painted/varnished.

Sheet

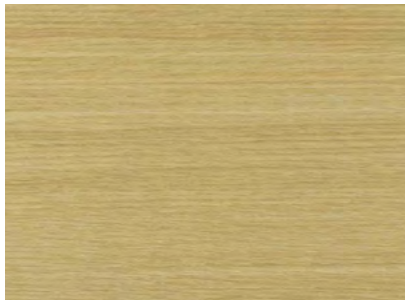

Thickness 48 mm with a tray of solid wood on the baseboard and white wood interior. Paper honeycomb or particle board externally, for better sound insulation. Surface lined with natural or artificial veneer, 0.7 mm thick, painted/varnished.

Hinges

The door consists of three double adjustable hinges that offer better support and adjustability to the door. Complemented by aluminum, nickel or gold caps, while it also allows for the installation of a hidden hinge.
